

LA ROCHE  
COLLEGE

## Nursing

### Nursing Programs We Offer:

**Associate of Science in Nursing:** A two-year program for those with a high school degree who want to become a licensed nurse

**Bachelor of Science in Nursing:** For graduates from diploma and associate degree programs who are seeking a baccalaureate degree via a traditional or accelerated format

**Master of Science in Nursing:** For those with a B.S.N. degree who want to obtain a leadership position in the management of health care delivery systems (Nursing Administration or Nursing Education specialties)

**Forensic Nurse Certificate Program:** For R.N.s who are interested in the scientific aspect of criminal investigations and the treatment of crime victims

**School Nurse Certificate Program:** For R.N.s who have earned a B.S.N. degree and students currently enrolled in La Roche College's B.S.N. Degree Completion Program who want to focus on the health care needs of children in schools

### What Can I Do with My Degree?

*A degree in Nursing from La Roche prepares students for a wide variety of careers, including:*

Education • Forensics • Legal Nurse Consultant  
Management • School Nurse • Staff Nurse

### Why Choose La Roche?

La Roche ensures that students obtain practical experience in the health care industry. The college's Nursing Resource Center allows students to practice and develop nursing skills at its state-of-the-art laboratory. Further, students are exposed to a broad range of experiences by completing clinical rotations in such areas as medical-surgical, pediatrics, community health, obstetrics, geriatrics, psychiatry, critical care and emergency care. We provide these crucial learning opportunities through our partnerships with various Pittsburgh-area health care institutions. Our experienced faculty members offer innovative instruction and hands-on learning shaped to fit students' specific needs, whether they are entering the nursing field for the first time or have already established themselves as seasoned professionals.

Providing students in all majors a well-rounded, liberal arts education, La Roche College prepares graduates to succeed

in a dynamic global economy. Today's employees need expertise in a specific field as well as broad-based knowledge and skills. That's what we offer to students from across the country — and around the world. Here, students find outstanding academic excellence combined with all of the advantages of small classes and personal attention from faculty. Our suburban campus, ranked as one of the safest in the United States, is just minutes away from metropolitan Pittsburgh's business, arts, cultural and sports districts. We offer all this and affordability, too — our net cost is the lowest of any private college or university in the region, and La Roche graduates leave school with the lowest average debt for students from area institutions.
