

Heart Attack has a new name... **Acute Coronary Syndrome (ACS)**

Do you know the signs and symptoms of **ACS**?

- ♥ **Chest discomfort** (tightness, heaviness, pressure, pain, squeezing)
- ♥ **Discomfort in the arms, neck, jaw or back**
- ♥ **Shortness of breath**
- ♥ **Nausea**
- ♥ **Profuse sweating**

If you think you are experiencing **ACS** call **911 immediately!!**

Proud to help those who have helped us.
