Subject: Theta Mu member of International Committee

Lynette: I serve on both the Corporate Board and Simulation and Technology Committee at the International level. I am leaving for a business trip, but I will send you the supporting documents when I return. I have already sent them to Judy Henry, so you could also get them from her.

I am also currently mentoring a DNP student from Waynesburg University and serve on her Research Committee

I am also the Board Secretary for Keystone Simulation and Technology Center in Potter township. It is a non-profit. Can pull up my profile on the website:

www.ksecpa.org

Anthony Battaglia, another Theta Mu member is the President of the Board

Hope this helps get the "points"

Great ideas. Yes, #5 is such, but we used Debra Wolfe Oct program for another item for submission. As for the other idea, I will send along to Mike and that probably will work.

Thanks, Lynette

For number 5, didn't we "Provide professional development opportunities and/or programs for chapter members" on October 8th, 2008 when Debra Wolf came???. I think I still have the certificate of mine if you need it!

Let me know!

For #1 "Maintained a leadership intern or mentorship program." I think that you and other staff members have mentored me not only in theta mu, but on how to become a teacher at LaRoche. Since I do assist the lab professor as a "sort of intern" this might be acceptable.....???????

Let me know!tnx
