Mike and Eileen,

I hope I can help.

Please let me know what is needed as far as evidence (copies of acceptance letters, programs with my name in it ?????). I have listed some of the major items I have accomplished lately (that I can think of without looking at my CV), not sure if this is what you need. Also what are the dates (parameters) of when items needed to be accomplished?

Presentations:

- *People to People Nursing Ambassador to China fall 2009
- *Speaker, Panelist, and presenter (3 different presentations) Nursing Informatics Interenational Congress (Helsinki) summer 2009
- *Presenter, Paris 2008

Organziations:

- *Member/task force leader National Nursing Staff Development Organization - review/revisions scope and standards of practice
- *IRB member Un of Pitt

Deb,

You are currently on quite an adventure!! Thank-you for helping us out. We will have one week after you are back to submit the application. I know you will need time to regroup when you return, so I hope this does not rush you, but the assistance will be terrific. We would like to submit a few extra points so that we have a cushion in case there is a debate.

Since the timing will be close, I am adding Mike Masciantonio's contact information since he is the chair and ultimate gatherer of the data. We are submitting everything electronically this year thanks to Mike.

Subject: Re: Key Award Information

Hi Eileen,

I would be happy to help and supply evidence. I believe I will be able to support all items below. I am currently in the lapland, helsinki and copenhagen.

Will return to the states on 7/5. I will be able to responde better at that time.

Take care,

Deb

Subject: Key Award Information

Hi Deb,

I am assisting in completing Theta Mu's next Key Award. There are a couple criteria in the application that may pertain to you.

1. "Members participate in leadership development programs (local, state, national, international, STTI or nonSTTI programs)."

2. "Feature collaborative international research in newsletter, Web site, poster, published article and other communications".

If you think think that your experiences would be applicable to either of these criteria and that we could show some evidence, that would be terrific.

Also, if you have not done so in the past, we are looking for a couple more people to add their name to the **STTI VIP Profile**. Please go to www.nursingsociety.org/VIP. You will need to add your STTI membership ID number from your card and your last name. It takes about 5 minutes. You can choose one or more areas that you feel you have some expertise.

Thank-you so much for your time!!
I hope you and your family are enjoying the summer!
Eileen
