Mike,

I attended the 33rd Annual National Association for Healthcare Quality Conference - Collaboration: The Spark Behind Quality - Phoenix Arizona September 14-17, 2008
I will also be attending the 34th Annual Conference - Deep in the Heart of Quality which is in Grapevine Texas September 13-16, 2009

Also, I am the Survey Team Leader for the required Annual VAPHS Survey of the State Home.....I am going to training in July.....I can give you more details if this would count.

We had a graduate student 4 hours a week for a semester who is the Patient Safety Manager at Sewickley Valley. She spent her time with our Lead Patient Safety Manager and was a member of the HFEMA Team, prepared the power point for presentation to leadership, as well as the documents for the exit. She was a graduate student from Marshall University. She was here from January thru May.

I am a SOARS consultant and have been on teams to Albuquerque, Greater LA, San Juan, and greater Hudson Valley VA.....might that count?

Anita
